Privacy Policy

Mobile Data Management Pty. Ltd. built the Veriify Check-In app as a Free app. This SERVICE is provided by Mobile Data Management Pty. Ltd. at no cost and is intended for use as is.

This page is used to inform visitors regarding our policies with the collection, use, and disclosure of Personal Information if anyone decided to use our Service.

If you choose to use our Service, then you agree to the collection and use of information in relation to this policy. The Personal Information that we collect is used for providing and improving the Service. we will not use or share your information with anyone except as described in this Privacy Policy.

The terms used in this Privacy Policy have the same meanings as in our Terms and Conditions, which is accessible at Veriify Check-In unless otherwise defined in this Privacy Policy.

Information Collection and Use

For a better experience, while using our Service, we may require you to provide us with certain personally identifiable information, including but not limited to Guest Name, Guest Phone, Guest Email. The information that we request will be retained by us and used as described in this privacy policy.

If you elect to collaborate with team members by creating a server account and optionally sharing your account keys, guest check-in data is uploaded to the veriify server.

All server communication is undertaken over a secure SSL connection.

Your account records are grouped using an anonymous random identifier. Your name and contact details as the account owner are not stored on the server.

Guest contact details are AES encrypted using the account key which is created on your device. This is never stored on the server meaning only yourself and anyone you have shared account keys with can decrypt and read this data.

There is no way any veriify staff can read any of the encrypted data under any circumstances as we never have access to your encryption key. If you don't backup your account keys and loose them from your device we will not be able to restore access to your data. Safely backup your credentials!

Even though the guest contact details are encrypted, the production database server is further protected and can be accessed by only two senior veriify administrators. The data will never be provided to any third party.

Terminating Use of the Service

If you wish to stop using the service the Manage Account view allows you to permanently and irrevocably delete your server account and all data on the server. Use carefully.

Cookies

Cookies are files with a small amount of data that are commonly used as anonymous unique identifiers. These are sent to your browser from the websites that you visit and are stored on your device's internal memory.

This Service does not use these "cookies"

Service Providers

We do not employ any third-party companies or individuals to facilitate our Service, provide the Service on our behalf, perform Service-related services or to assist us in analyzing how our Service is used.

Your data will not be provided to third parties.

Security

We value your trust in providing us your Personal Information, thus we are striving to use commercially acceptable means of protecting it. But remember that no method of transmission over the internet, or method of electronic storage is 100% secure and reliable, and we cannot guarantee its absolute security.

Changes to This Privacy Policy

We may update our Privacy Policy from time to time. Thus, you are advised to review this page periodically for any changes. we will notify you of any changes by posting the new Privacy Policy on this page.

This policy is effective as of 2020–06–02
